Op de schouders van reuzen staan

credit: Maximilian Ruther

A man with short brown hair, wearing a blue and white checkered button-down shirt, stands in front of a chalkboard. The chalkboard contains handwritten text in white chalk. At the top left, 'Semantiek' and 'Web' are written inside a circle. To the right, there are mathematical expressions: $\text{sort}(r, a, b)$, $r(a, b)$, $\text{med}(m, k)$, and sat . On the left side, '3C' and 'Modulo' are partially visible. The man is looking directly at the camera with a slight smile.

Deze meneer heeft het internet uitgevonden samen met een Belg, Robert Cailliau. Het internet was destijds ontworpen op een open en gedecentraliseerde manier. Vandaag is dit echter niet volledig meer het geval.

Deze meneer is een van de drijvende krachten achter het grootste en belangrijkste open source project van de wereld. Hij is echter niet gekend om zijn democratische benadering.

A woman with short, wavy brown hair is speaking at a podium. She is wearing a grey patterned jacket, a pearl necklace, and a ring. Her right hand is raised near her face. The background is a blue wall with the European Union flag. A white text box is overlaid on the bottom left of the image.

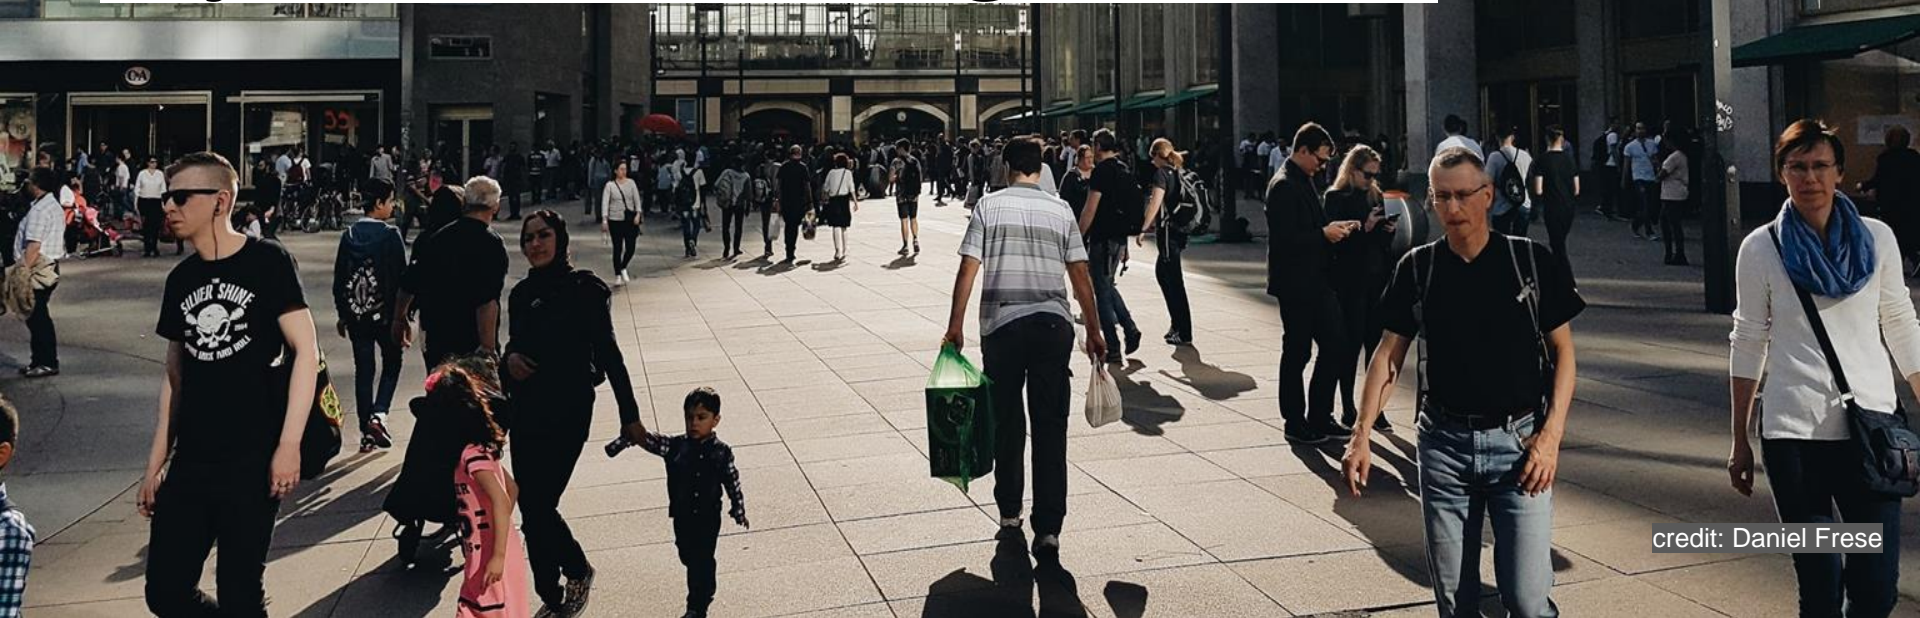

Deze mevrouw heeft ervoor gezorgd dat we
overal in Europa naar YouTube kunnen kijken
zonder dure roamingkosten.

A close-up portrait of James Boyle, a man with short dark hair and a slight smile, wearing a dark suit jacket, a light blue and white striped shirt, and a blue tie. The background is a plain, light-colored wall.

Deze meneer richtte the Open Knowledge Foundation op in 2004, creëerde de open definitie, was co-oprichter van Creative Commons en gebruikte de quote: "copyright is a monopoly"

"It is good that authors should be remunerated, and the least exceptionable way of remunerating them is by a monopoly. Yet monopoly is evil. For the sake of the good we must submit to the evil: but the evil ought not to last a day longer than is necessary for the purpose of securing the good."
