

High-Level Dialogue on Connected and Automated Driving

18-19 June 2024, Ghent

Break-out session 2

Shared autonomous mobility

Pitch SHOW

John McSweeney
Project Coordinator– UITP

SHOW – Shared CCAM in Public Transport

Deployment of shared, connected and electrified automated vehicles to advance sustainable urban mobility

Coordinated by UITP

60+ partners from 13 EU-countries

January 2020 – September 2024

30 Mio. EUR funding from European Commission (GA No. 875530)

Shared automation Operating models for Worldwide adoption

 This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No. 875530.

80 vehicles in 22 pilot cities

Real passengers & real services

CCAM in public transport – it works!

- ▶ **New services**
- ▶ **Increased flexibility**
- ▶ **Larger operating areas**
- ▶ **Longer operating hours**
- ▶ **Making the link to ‘traditional’ PT**

Public transport operators are ready

- ▶ **Most SHOW pilot sites will continue**
- ▶ **PTOs are investing & testing**
 - Business models & use cases
 - Operations & maintenance
 - User engagement

There are challenges to overcome

- ▶ **More vehicles**
- ▶ **Enhanced performance**
- ▶ **Expanded testing & operations**
- ▶ **Predictable regulation**
- ▶ **Stable financing**
